

Municipal Board Empowerment Series Workshop #7

# Coastal Viewer 201

## Become a Coastal Viewer Project Manager!

May 15, 2018 6:00-8:00 PM

UNH Pettee Hall, Room G18  
55 College Road Durham, NH

Refreshments and networking 5:30 PM Workshop starts promptly at 6:00 PM  
Free parking is available at the Edgewood Road Visitor Lot, 5 Edgewood Road, Durham

Building off the first workshop “Coastal Viewer 101 for Land Conservation,” participants of “Coastal Viewer 201” will practice using the NH Coastal Viewer to access data about NH’s coastal resources, hazards, and resilient landscapes. The workshop will include hands-on exercises to familiarize participants with the Viewer’s data, tools, capabilities, and datasets as well as the limitations of the Coastal Viewer. By the end of the workshop, participants will learn to save and share a project with colleagues using their own **ArcGIS online** account, and practice using data layers and completing basic analyses.

**\*\*Please bring your own laptop if possible (no Macs or tablets).** There will be 4-5 computers available for those who do not have one. We recommend using the Chrome browser loaded on your laptop. Other browsers are useable, but may not provide optimum performance.

Workshop is **free** of charge, suggested donation of \$5, and you must register to participate.

Email Steve Miller at [steve.miller@wildlife.nh.gov](mailto:steve.miller@wildlife.nh.gov) to register with your name, position, organization, and contact information (email and phone).
