

Shoreline Stabilization Options for Newington's Fox Point Area

Site Visit & Design Concept Discussion with
Seth Wilkinson

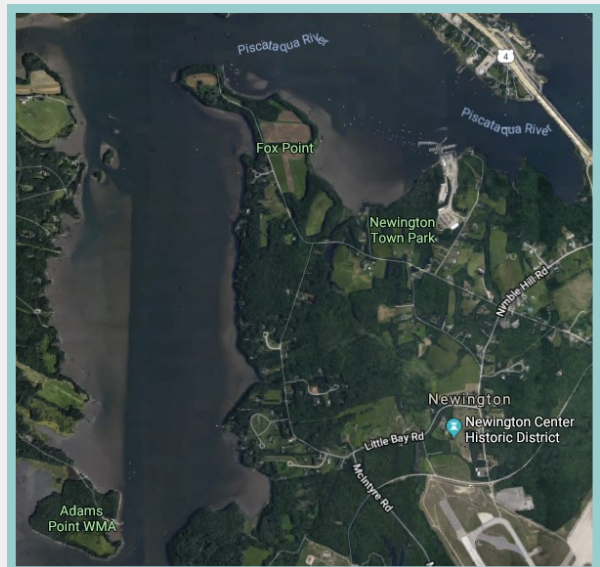

Monday, March 26, 2018 from 1:00PM to 4:30PM

Location: Fox Point properties & Newington Town Office

An opportunity for property owners/managers, consultants, and permitters involved in or considering shoreline stabilization projects in the Fox Point area.

Participants will:

- Learn about hybrid stabilization approaches for steep bank environments like Fox Point
- Inform designs, guidance, and permitting for steep bank stabilization projects
- Identify partnership and funding opportunities

Draft Agenda

1:00pm: Site walks | Town's Fox Point property & Little Bay Rd. private property site

2:15pm: Drive to Newington Town Offices (205 Nimble Hill Rd.)

2:30pm: Shoreline stabilization approaches for steep banks | Presentation by Seth Wilkinson of Wilkinson Ecological Design Inc. followed by questions

3:15pm: Design options and issues | groups break out by project site to develop rough concepts or discuss existing design plans

4:15pm: Wrap up discussion | partnership & funding opportunities, next steps

4:30pm : Adjourn

Participation is by invitation only & space is limited.

Please RSVP as soon as possible to Kirsten Howard at
Kirsten.Howard@des.nh.gov or (603)559-0020.
