

Community	What	Who	When	Resources needed	Next steps
Coastal CC Roundtable	Review ordinances in coastal communities for consistency across boundaries, ID opportunities for improving consistency	TBD		Funding	<input type="checkbox"/> Amanda and Lisa will keep an eye out for funding opportunities
	Salt marsh migration:	CC Roundtable group, with support from Extension, Sea Grant, and GBNERR	Workshop (field component) – late summer/fall 2017?		<input type="checkbox"/> Amanda and Lisa talk with David Burdick and others about potential workshop
	<ul style="list-style-type: none"> Communication effort to elevate the issue, educate boards and the public about functions/benefits of marshes Workshop idea (Rye example) – field component (ideally coupled with tech assistance idea below) 				
	<ul style="list-style-type: none"> Technical assistance (looking at maps with communities, identifying potential opportunities and priorities) Photo post (Alyson's example) – outreach opportunity, collect data for CCs, work with schools 				
	Invasive species management work	CC Roundtable group, with support from Stewardship Network and RCCD			<input type="checkbox"/> Discuss further with Tracy <input type="checkbox"/> Amanda and Lisa can help connect with Stewardship Network as needed <input type="checkbox"/> Amanda check with TNC re: status of the update
Updating conservation properties data (outdated, inconsistent) – communities need assistance with updating data; more frequent	Future intern? Update currently going on; different organizations involved; also PREP SOOE effort		Possibly funding? (if intern)	<input type="checkbox"/> Amanda and Lisa check in with GRANIT/Coastal Viewer contacts re: data viewing options, idea of online form to submit updates	
Work on integrating climate change and other natural resources-related concerns into municipal documents - Need assistance getting climate change incorporated throughout master plan and not just in climate change chapter	Exeter Master Plan update underway; Greenland Master Plan Chapter proposal (SAIL); Seabrook added a Climate and Adaptation Chapter to Master Plan			<input type="checkbox"/> Amanda and Lisa will follow up with RPC (Greenland) and Horsley Witten (Exeter) to communicate this information	
Dover	Incorporate climate change into City documents – CC input on Master Plan chapter on climate adaptation (in development)	CC members provide input – Steve B. can help connect to the MP effort; UNHCE and SRPC can help ID opportunities for input and make sure CC is invited to outreach events	MP chapter under development; outreach events in October	Resources for MP chapter and associated outreach already available through NH Setting SAIL project	<input type="checkbox"/> Steve B. keep CC in the loop for MP effort <input type="checkbox"/> Amanda/Lisa will help make sure CC is invited to outreach events in October
	Incorporate climate considerations into checklist/criteria for conservation	Dover Open Lands Committee (if interested), with support from UNHCE	Could be done soon	Model criteria	<input type="checkbox"/> Steve B. will share the 2-pager with Open Lands Committee at 6/15 meeting; if they're interested in incorporating climate into conservation criteria, let Amanda and Lisa know <input type="checkbox"/> Lisa and Amanda are working on developing model criteria for incorporating climate
Durham	Inventory of lost forested area, species, and carbon capture (esp. in the context of upholding Paris Accord goals) – Possibly look into getting a forest inventory done for the site(s) of interest?	Possibly an Extension Forester could help?	TBD	Forest inventory Carbon sequestration information	Conservation Commission let Lisa know if interested in pursuing
	Record of flood events in the area (e.g., King Tide and others – how frequent)	Lisa will look into this and get back to the Conservation Commission	This fall		Lisa will look into this and follow-up with any information, if available
	More information about dams in the context of climate change (mitigation and adaptation)				
	Are any towns using Transfer of Development Rights (TDR)? See SB185/79E example: http://www.nhcaw.org/nh-policy-updates-support-coastal-resilience/				
Incorporate climate change data and information into town documents:	Exeter CC/PB, with support from UNHCE as needed; work with Horsley Witten (MP update)	If possible, incorporate as part of current update to MP; new NRI guide will be available in the coming months; incorporate climate into mgmt plans for town properties moving forward	Updated NRI guide	<input type="checkbox"/> Amanda pass along updated NRI guide when available <input type="checkbox"/> Exeter CC connect with PB re: Master Plan update and NR chapter <input type="checkbox"/> Exeter CC identify next management plan development/revision opportunities for town properties and make sure climate information is incorporated	
Public outreach/education activities - build awareness of climate change and more frequent and intense storms and flooding					Exeter CC, connect with RPC (Julie LaBranche) re: SAIL technical assistance project; CAW; UNHCE support as needed
Greenland	-	-	-	-	No concrete next steps - check in at some point; keep in the loop on SAIL tech assistance project; low CC membership - regrouping
Madbury	Incorporate climate considerations into checklist/criteria for conservation	Madbury CC, with support from UNHCE/maybe SELT	Could be done soon	Model criteria	<input type="checkbox"/> Lisa and Amanda will look for examples of climate-related criteria for conservation
	Invasive species management:	Madbury CC, with support from Stewardship Network	When is an ideal time for invasives control? Might depend on the species.	Funding for volunteer event and/or distribution of materials	<input type="checkbox"/> Madbury CC determine whether/how to proceed with invasives project; UNHCE can help connect to Stewardship Network
	<ul style="list-style-type: none"> Need ongoing maintenance for areas already treated (roadside Japanese knotweed) Possible Garlic Mustard effort – could organize a community garlic mustard pull event and/or distribute materials to landowners to raise awareness 				
	Culverts – possible opportunities for projects to restore habitat/fish passage	NH Setting SAIL team (UNHCE, SRPC) Madbury CC Potential connections with Stewardship Network	TBD	TBD	<input type="checkbox"/> Kyle (SRPC) working with Rollinsford on grant app template for culvert replacement and list of funding opportunities – will share w/Madbury once complete <input type="checkbox"/> Madbury CC keep an eye out for potential restoration opportunities around culverts
	Update Natural Resources Inventory to incorporate climate change	Madbury CC, with support from UNHCE/SRPC?	Next Master Plan update? When new NRI guide is available	Funding New NRI guide	<input type="checkbox"/> Amanda updating NRI Guide (will incorporate CC) – should be ready in 3-4 months
Outreach	Madbury CC working with UNHCE/SRPC Potential partners/venues: Madbury Community Club, Historical Society, NH Landscape Assoc. (John)	Now through March 2018	Resources available through NH Setting SAIL project (*2 workshops from now through March 2018)	<input type="checkbox"/> Lisa, Amanda, and Kyle will meet with Eric to determine next steps, ID planning team members, prioritize topics	

Newfields	Town Forest walk with a forester to discuss options for management (for consideration in a future management plan) and look at invasive species locations	Newfields CC and UNHCE forester Andy Fast	Summer 2017?	Andy's time	<input type="checkbox"/> Amanda connect Newfields CC with Andy Fast
	Community invasives pulling event	Newfields CC, Stewardship Network			<input type="checkbox"/> Once that meeting has taken place, we can work with you to help connect you with some Extension resources such as The Stewardship Network to organize and publicize a possible community invasives pulling event.
	Management plan for the town forest	TBD	TBD	Funding	<input type="checkbox"/> We are not able to fund a management plan for you, but this may be something the town is willing to fund at some point in the future. Depending on how your conservation fund is set up, you may be able to use some of those funds.
Newmarket	Buffers workshop	Newmarket CC/PB, GBNERR, with support from UNHCE as needed	Fall 2017?		<input type="checkbox"/> Newmarket CC follow up with Diane Hardy to discuss the possibility of a joint CC/PB buffers workshop <input type="checkbox"/> Amanda talk to Steve Miller at the Great Bay Reserve about a possible buffers workshop program for Newmarket boards <i>Follow-up – Steve said he would be available to give a program for Newmarket in the fall, around Sept/Oct 2017</i>
	High-water mark project	Newmarket CC, UNHCE	Summer-fall 2017?		<input type="checkbox"/> Newmarket CC discuss high-water mark poster/information at waterfront park and decide if they would like to move forward with this project.
Newington	Stewardship projects: Old Town Forest, Fox Point, Knights Brook? (trail building, invasives control, poison ivy mgmt., dealing with trash dumps at Old Town Forest?)	Newington CC, with support from Stewardship Network; maybe coordinate with local schools	Fall? (maybe combine with Septemberfest event?)	Volunteers, tools and guidance (Stewardship Network), publicity	<input type="checkbox"/> Lisa will connect with Stewardship Network folks to discuss opportunities and next steps (esp. dealing with potential challenges at Old Town Forest) <input type="checkbox"/> Newington CC: Let Lisa know if there is a report available re: Stonehill's inventory
	Erosion control workshop and project at Fox Point	Newington CC, with support from UNHCE, GBNERR (and possible connection to the living shoreline project Christos mentioned)	Fall?	Moose Plate Grant?	<input type="checkbox"/> Jerry: reach out to Dea re: Moose Plate grant (keep Lisa/Christos in the loop)
				Presenters, maybe funding, publicity for a workshop	<input type="checkbox"/> Christos: reach out to living shorelines project team re: possible demonstration site
				Funding, expertise for living shoreline / erosion control project	<input type="checkbox"/> Christos: keep Newington CC in the loop re: any relevant upcoming workshops for the living shorelines project
				Volunteers, tools and guidance (Stewardship Network), publicity for stewardship project	
	Stewardship Plan for Knights Brook? (incorporate climate change impacts)	Newington CC, with support from UNHCE	TBD	Stewardship Plan template / guidance for incorporating climate change	<input type="checkbox"/> Newington CC: let Lisa know if you want to pursue this, and we can help identify some next steps and connect with available resources
	Update Natural Resources Inventory to incorporate climate change	Newington CC, with support from UNHCE	When new NRI guide is available	Funding, new NRI guide	<input type="checkbox"/> New NRI Guide will be available from UNHCE in a few months – Lisa and Amanda will make sure to connect Newington CC to this
Other educational workshops/programs re: climate impacts and preparedness	Maybe the NH Coastal Adaptation Workgroup (CAW)?	TBD (depends on topics, CAW availability, planning capacity)	Presenters, venue, publicity, maybe a small amount of funding for food etc.	<input type="checkbox"/> Newington CC: check out CAW's past workshops (link) for examples of what's been done in the past; let Lisa know if you want to pursue any particular ideas	
High-water mark sign project – maybe at Great Bay Marine? RPC working on this with Portsmouth, Rye, Hampton, Seabrook	Newington CC, with support from UNHCE	TBD	Maybe funding, depending on the desired approach	<input type="checkbox"/> Newington CC: let Lisa know if this is something you want to discuss further	
Guidance the CC can use to advise on plantings	Newington CC, with support from UNHCE	TBD	Resources/list of suggested plants	<input type="checkbox"/> Lisa: connect the Newington CC to existing resources	
Rollinsford	Invasive species work	Luke Conroy, Rollinsford CC, support from UNHCE/Stewardship Network	Summer/fall?	Volunteers, tools	<input type="checkbox"/> Luke/CC let us know if/how we can help connect you to the resources you need
		Conservation Commission		See Stewardship Network resources	
	Maybe something around flooding, stormwater, culverts (to complement SAIL culverts project – see notes below – and pending adoption of revised stormwater regs) – a few ideas = outreach re: values of wetlands for absorbing flood waters, restoration projects/outreach around culverts and habitat connectivity, outreach re: stormwater and what landowners can do (e.g., SOAK up the Rain program), etc.	Conservation Commission, with support from SRPC, UNHCE	TBD	TBD	<input type="checkbox"/> CC let us know if you're interested in doing something on these topics
Stratham	NRI - incorporate CC	UNHCE	Later in 2017?	New NRI guide	<input type="checkbox"/> Amanda let CC know when the updated NRI Guide is ready.
	Buffers information	UNHCE - connect with BOB project resources	BOB project wrapping up by fall 2017	BOB project results	<input type="checkbox"/> Amanda/Lisa pass along resources/info once available from BOB project
	Combine NRI with NR chapter in Master Plan: When the Natural Resources chapter of the Master Plan is next updated, it would be a good idea to have one combined document that could serve the purpose of both the NRI and the NR Chapter in the Master Plan so the two are completely connected. This also means that the NRI is easily incorporated into the Master Plan through the NR chapter.	Stratham CC/PB, with support from UNHCE as needed; Master Plan update - RPC?	With Stratham's NRI document last being updated in 2011, it will be due for another update in the next year or two. This may dovetail well with a near future NR chapter update.		Updated NRI guide; resources for MP update
